

Replacement Column Doors

DESIGNER AND MANUFACTURER

Lighting Design Solutions are designers and manufacturers of a wide range of specialist street lighting furniture along with structural and architectural designs for local government and contractors across the UK.

PRODUCT RANGE

Our product range includes feeder pillars, street lighting columns, brackets, and made-to-order steel fabrications.

SERVICE AND QUALITY

We provide a personal level of service with top quality products and our product sales are supported with a technical advice service to help lighting and electrical engineers.

SPECIALIST

Our engineers work from CAD drawings and customer specifications to design exactly what is required.

As a manufacturer we specialise in the 'specials' that you require, taking orders for single or multiple items.

Lighting Design Solutions provide a wide range of replacement column doors to match the industry standards.

Using the appropriate table by column manufacturer you will be able to match your door to a replacement.

We will manufacture custom-made doors to match your requirements.

We produce adjustable and temporary column doors.
